SECTION 3

4-H Project Focus

Junior Rabbit Project

We “learn by doing” in 4-H. List the specific things you learned and did in this project area during the past year. List both things that you learned and skills that you gained. Please list the most important presentations, talks, exhibits, camps, judging events, workshops, or any other learning experiences in which you have participated related to your project. Include dates and level of participation. Please list the work you have done this year (from January – December) using a bullet statement, list, and/or chart.

What did you do in this project this year and when?	What did you learn?	Level

Did you spend or make any money on your project?

How much did you spend? How much did you make?

SECTION 5

Awards and Recognition

List all the awards, honors, and recognitions you have received including contests, trips, certificates, ribbons, etc. Specify whether they were National, Regional, State, District, County, or Club awards.

Experiences should be divided between project specific awards that related to this Project Record area, other 4-H awards and non-4-H awards. List your Project specific awards first then follow with other awards and then non-4-H awards.

If you have not received awards in a specific section, just state "No Awards Received".

What does a judge look for in placing market Rabbits?

Rabbit Term Matching

Directions: Draw a line from the term to its correct definition.

Roughage

Feeds low in fibre and high in digestible nutrients such as corn, oats, wheat, barley, and fish meal.

Proteins

Feeds high in fibre and low in digestible nutrients. Alfalfa hay and clover hays are examples.

Concentrates

Feeds that are fed in the green stage such as green grass and vegetables. Should only be used as supplements (treats).

Succulent

Find their use in the body as regulators of growth processes, assisting in digestion and helping disease prevention. A, B, and D are most commonly required by rabbits.

Nutrients

Primary consist of carbohydrates, fats, and proteins and secondary consist of minerals and vitamins.

Vitamins

Most important part of a rabbit's diet. Helps with the digestion of food and transportation of nutrients throughout the body.

Water

Necessary for growth, development of glands, muscles, hide, and hair.
